

OxyFlow is a unique, patented plant extract product that is applied for the reduction and prevention of scaling, bio-fouling, algae growth and systematic clogging.

Treatment successfully reduces

**Phosphates
Phosphorus
Nitrate
Ammonia**

**Calcium (Ca)
Magnesium (Mg)
TDS (limited)
TSS
FOG**

**Iron (Fe)
Copper (Cu)
Manganese (Mn)
Zinc (Zn)
Aluminium (Al)
Arsenic (As)**

Common conditions treated

**Bio-Fouling
Scale deposits
Algae growth
Sediment build-up
Fat Oil and Grease clogging
Iron Oxide deposits
Organic Clogging**

Application

**Cooling Towers
Cooling Systems
Scrubber Systems
Piping systems
Process Plants
Drain systems
Fat traps
Storm water systems
Irrigation systems
Systems where systematic clogging occur
Restaurant and Hotel Effluents**
