

IMANTS

RotoKnife 1800

The Imants RotoKnife 1800 is an easy to use versatile root zone management tool that improves aeration, reduces thatch build-up and removes surface water. The linear aerator's versatility comes from the five working positions of the rotor, which allows slitting to a depth of 150mm or shallow slitting at 50mm spacings, with minimal surface disruption and no after-use clean up required. As a result, the RotoKnife is an ideal root zone enhancement tool for both warm and cool season grasses and can even be used as a surface smoothing roller.

Specification

Working width	1.80m
Transport width	2.30m
Working depth	10mm - 150mm (variable settings)
Number of discs	6, 17, 18, 35
Disc thickness	3mm (200mm disc) 4mm (200mm & 450mm disc)
Disc spacing	50mm, 100mm, & 300mm
Disc diameter	200mm, 450mm
Weight	895kg
Power requirement	45hp
Operating speed	0 - 12mph (0-20kpm)

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
