RELi³ON[®]

FEATURES AND BENEFITS - LITHIUM

SAFE

Inherently safe chemistry. BMS provides extra protection.

NON-HAZARDOUS

No gasses emitted.

DROP-IN REPLACEMENT

Available in standard industry sizes.

INSTALLATION FLEXIBILITY

Can be installed upright or on its side.

MORE USABLE CAPACITY

25-50% more capacity than lead-acid equivalent.

CUSTOMIZABLE

Easy to customize for your size and power needs.

PSOC TOLERANT

No damage from partial state of charge operation or storage.

TEMPERATURE TOLERANT

2.5X more efficient operation at low temperatures. Safely operational up to 149°F (65°C).

With our vast range of products and deep industry knowledge, we can deliver the power you need – from ***drop-in replacements*** to ***custom solutions***. RELiON's dedicated engineers will help you find the ideal battery for your application.

Power Your Aquatic Adventures

Cruisers, racers and anglers want to spend as much time on the water as possible. Long-lasting RELiON lithium iron phosphate (LiFePO₄) batteries fit all types of watercraft and deliver the dependable power for everything you need, from punching your holeshot in competition to running your A/C at the dock.

THE RIGHT FIT: RELiON lithium batteries are available in a variety of BCI standard sizes for easy drop-in replacement. Looking for a custom solution? No problem! Our Certified PowerPros can design the best system for your needs.

LIGHT ON WEIGHT; HEAVY ON POWER: RELiON lithium batteries provide more power than traditional lead-acid batteries and are typically half the weight. This makes for better acceleration and more agility on the water.

MORE HOURS; MORE FUN: RELiON lithium batteries provide long-lasting energy for all your marine needs, so run the A/C, the fish finder or the trolling motor and know that you have ample reserves.

WORRY-FREE: RELiON lithium batteries are maintenance free – no watering; no corrosion. In addition, they can be charged more quickly using standard plug-in, alternator, generator, or solar systems. Partial charging does not affect performance, and a low self-discharge rate means worry-free storage.

EXTREME PERFORMANCE: RELiON lithium batteries are designed to perform in harsh conditions—freezing cold, scorching heat or rough waters.

ECO-FRIENDLY: RELiON lithium batteries are the ultimate clean energy. No gassing, no fumes and no pollution. Enjoy reliable power, while protecting the environment, using these non-hazardous batteries.

SAFETY TESTED: Unlike other lithium chemistries, RELiON LiFePO₄ batteries are inherently safe due to their stable chemical composition, and we have the UL1642 and IEC62133 test results to prove it.

BACKED BY THE BEST: Built to last, designed to perform, premium RELiON lithium batteries deliver unsurpassed performance on the water. We back this claim with a comprehensive, 5-year warranty.

“ RELiON lithium batteries offer the best value on the market. Simply put, these batteries are lightweight, fast charging and long-lasting, and they’re available in standard and custom sizes to fit just about any system. In addition, RELiON’s attention to safety and customer service is excellent. Racers and cruisers, alike, will love the power and performance of RELiON’s marine batteries. ”

RAFAEL ESCOBAR
Technical Manager at Just Catamarans

“ RELiON lithium batteries have been a complete game-changer! These batteries charge quickly and last longer than any other batteries I have used. Talk about a competitive advantage – when I’m on the reservoirs, I can cover 10 times the amount of water. ”
